A COORDINATED EFFORT BY BREEDERS AND PROCESSORS TO IMPROVE WHEAT QUALITY

MEMO

TO: All Interested Parties
FROM: Dave Green, Wheat Quality Council
RE: 2021 Hard Spring and Durum Wheat Tour
DATE: May 15, 2021

This is your invitation to participate in the above wheat tour sponsored by the Wheat Quality Council. We are conducting two tours again this year—hard winter and hard spring and durum.

“And don’t Forget. . .

These tours are a tremendous learning experience for any new people in the industry. They are also a great mentoring opportunity since each car on the tour has a tour veteran that can help teach any tour newcomers. This training and mentoring opportunity is an extremely good value for the amount of fundamental wheat industry knowledge that a person can acquire in just three short days. Encourage others from your organization or fraternal organizations to join you. A better educated wheat industry is beneficial to all of us.

- ◆ **Complete the registration form and send it back prior to the dates listed to ensure that motel rooms will be available.**
- ◆ **Let me know if you can drive. The spring wheat tour info is currently available on the website.**

The registration forms are also on our web site. www.wheatqualitycouncil.org

Hope to see you on the tours.
